

FASTAID PROLOK™ HEAD IMMOBILISER

Description

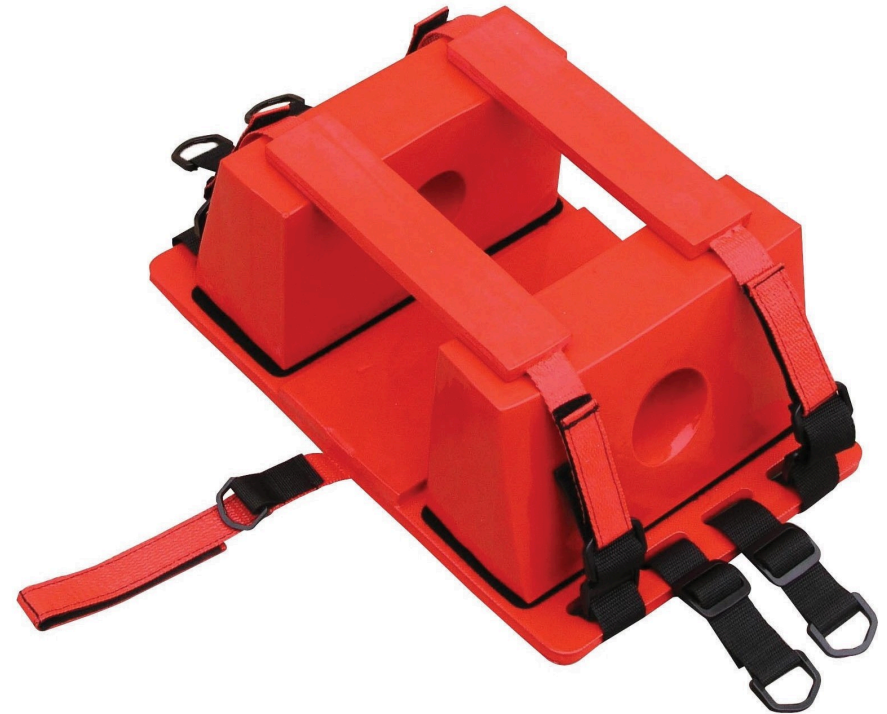

- Assists with spinal injury patient immobilisation
- Universal head immobiliser design
- Waterproof plastic coating
- Compatible with backboards and scoop stretchers
- Easy to clean and impervious to body fluids

The FastAid ProLok™ Head Immobiliser is designed to provide patient comfort while providing immobilisation for potential neck and spinal injuries.

The unique head strap is designed to conform to patient's forehead for added comfort. Large ear holes are provided for monitoring the patient's ear canal. The head supports can be used on backboards or reversed for use on FastAid scoop stretchers.

The design of the FastAid ProLok™ Head Immobiliser ensures minimal interference with X-ray, MRI or CT scan procedures, and its waterproof plastic coating makes it easy to clean and impervious to body fluids.

This head immobiliser is a universal design and is compatible with FastAid backboards and scoop stretchers.
